PROJECT

1. Sports Event Management System

Academic Project | PHP, MySQL, HTML, CSS, JavaScript

- Developed a web application to manage college sports events with role-based access for Admins, Students, and Volunteers.
- Implemented key features such as individual/team registration, photo upload with preview, real-time event updates, and result submission.
- Used PHP and MySQL for backend logic and database handling; designed a responsive and user-friendly interface for mobile and desktop.

2. Coffee Order System UI

WDR Course Project | React+ Express js + SQLite with Prima ORM

- *Built a modern, animated user interface for coffee ordering.*
- *Implemented smooth transitions using Framer Motion.*
- *Created reusable components following best UI/UX practices.*
